- Student contract
- Actual enrollment done by Local Educational Guide (LEG)
- Course(s) paid by school district
- Fall orientation - August

Blended Learning

Definition: a formal educational program in which a student learns through a combination of:

1. Online learning through virtual course work
2. Face to face instruction in a supervised brick-and-mortar location

Final Thoughts

- This is a continuously evolving program.
feedback is always welcome
- The success of students in the online learning environment depends largely on the consistent support of their families
- Online learning is not the best option for all students (and not for all classes), but it is a great option for some students
